Deagel.com was officially operated by Dr. Edwin A. Deagle Junior. In 2014, Deagel.com published predictions of massive population declines happening abruptly before the year 2025, mostly in Western countries.

For over five years the mysterious depopulation predictions on Deagel.com were regularly updated. But after the 2020

Deagel.com has always been a very stark website. With all the appearances of being an intelligence agency website. It claimed to be the personal website of Dr. Edwin A. Deagle Jr., who recently passed away in February of 2021.

In their recent article, [“Uncovering the CIA & Rockefeller Foundation’s Role in the Depopulation Forecast released by Deagle,”](#) the Exposé connects the dots that many of us have assumed existed.

Declassified FOIA documents from the nineteen-seventies reveal Deagle’s direct communication with Stansfield Turner, the director of the CIA at the time.

In 1976, Dr. Edwin Deagle moved to New York to become deputy director of the international relations program at the Rockefeller Foundation.

The Rockefeller Foundation was created on May 14th 1913, just a few months after the Rockefeller family helped setup the Federal Reserve Banking system, which gave them unlimited funds while enslaving future generations with debt.

The Rockefeller Foundation funded eugenics programs that decided who should live and who should die. They outlawed natural medicine and fuel, including one of America’s number one cash crops, Hemp, and replaced it all with chemical compounds derived from their oil company’s toxic waste. The Rockefeller Foundation created the United Nations and have their tentacles in NGOs throughout the Western world. In 2019, they funded ‘Event

201,' the blueprint for the COVID lock-downs that were executed weeks later.

Officially we are told that Dr. Edwin A. Deagle Jr., a deputy director of the Rockefeller Foundation and an associate of the CIA, retired in 2005. The depopulation forecast was published in 2014.

The Deagel.com forecast predicted that by the year 2025, the UK would see its population decline by 77%, Ireland would see its decline by 72%, the United States by 68%, and Germany by 65%, while other countries like Russia are predicted to experience practically zero decline. And official data is now showing that the extreme Deagel.com predictions may be accurate.

Official figures, which we can assume are rather conservative, are showing that government shutdowns and mandated deadly shots have caused staggering levels of excess death. According to official UK Government data, the Covid-19 vaccines were the main cause of excess death. And the more shots you got, the more likely you were to die. Many are saying that over twenty million have died as a result of the Covid lockdowns and experimental shots. And while that number is historically epic in size, it still does not amount to what Deagel predicted by 2025. But we still have time.

A 2014 letter that was published along with the depopulation forecast stated that they predict this decline because "the collapse of the Western financial system will wipe out the standard of living of its population." And that "the population will be hit so badly... that the migration engine will start to work in reverse... leading to the demise of the (United) States."

They wrote that “historically a change in the economic paradigm has resulted in a death toll that is rarely highlighted by mainstream historians.”

With the end of the Petro-Dollar, and with the rise of resource backed BRICS, the Federal Reserve’s USD Ponzi scheme is likely at its end. And without factoring in a smart recovery plan, this would make Deagel’s predictions a reality.

Agree! People have 2-5yrs possibly a little more give or take due to the way the lucijuce functions and is incorporated into one’s DNA. The alteration in the DNA makes

one a spike protein factory. The spike protein acts as razor blades within the body. My mom got the lucijuice and has had 2 heart attacks and also a necrotic liver that is only functioning at 30% and she has never drank, smoked, or did any extracurricular drugs.

if it was only spike which is in fact just a protein envelop synthetized from snake and sea snails venom.... add to that nano circuits, hydroxyde graphene, + 200 more chemicals and metals transforming the DNA for ever an making each human as an "node" for their IEEE 802.15 network like WBAN (health control), IoT, IoB. I wonder who told Mr. Deagle about that massive Population Decline in the Western World? Was he actually able to talk to the top of the Pyramid? The top of the Cabal,.....? Who even knows who they are! But it must have been someone that Bill Gates spoke to often.....since he's the one spewing all the lies about how 'vaxxing would fix over population'. The Chosen People have decided, the rest of us MUST DIE.

CIA is a Jesuit organization and he clearly had CIA ties.

The Jesuits are Luciferians, and if anyone doubts that, all they need to do is look at what they named their observatory on mount Graham, or perhaps the serpent shaped auditorium in Rome.

Wasn't aware of CIA being a part of the Society of Jesus, who as far as I was aware are a Catholic Priesthood who's ordained take the usual RCC vows of chastity and obedience plus the additional vow of poverty... having something to do with the missionary world of saints Francis Xavier and Ignatius Loyola. They are considered to be the intellectual class of the priesthood and are primarily scientists and teachers at some of the finest schools around the world.

Im aware of the alleged infiltration of the order in the 18th century by the likes of Adam Weisshaupt at the behest of the Rothschilds, who then went on to form the Illuminati after leaving the priesthood and then spreading those ideas underground inside upper levels of some Masonic Lodges.

I've been to Rome and the Vatican but missed the serpent auditorium. I'm also unaware of their luciferian beliefs, the name of their observatory on Mt Graham or their relationship with CIA. Please provide some details and links if possible.

Most is a deep rooted anti-catholic belief. Stems from a necessary hatred of what one has broken from, as to justify such break away. ( reformation) but also

ignorance of what actually is done and the history behind it in the catholic church. Do we have people destroying the church from within? Yes.

There is a war within good vs evil, just like the US. Our evil people in politics does not change our constitution, anymore then those within Christ's church doing evil, changes Jesus's one true church. Jesus began his church as ONE. Not 40,000 christian denominations as it stands today. Satan divides. Christ started His church as ONE. We must push back on those within and clean the church of her blasphemies.

What we need to consider is that depopulation is not an overnight occurrence but due to the vax and its affect on DNA any future generations will not be able to procreate and each succeeding generation will have mutated into something that is not sustainable producing humans that are sickly, ineffective and missing parts of their genetics. Which is the plan.

Let's start a list of ideas:

1. Living healthy, including eating naturally as far as possible
2. Chop off 5G, 6G antennas or any similar device like surveillance cameras (UK)
3. Go to airports where the chemtrail planes take off, sabotage them

4. Save your energy, stop missionaring people of your surroundings who don't want to be saved. Just live your example, it'll convince them rather more.

5. Detox as needed and as possible. Many methods out there.

Knowing about it is key. Otherwise we follow others off the cliff. Too late for those that went over. But if we are not aware of what is really going on we'll be dodo birds over the edge.

We won't know and unless the antidote is released we are in danger of all life extinguishing on the planet and that is humans, animals, insects.

Not knowing is the worse because we will have no caution. And they are planning to roll out Pandemic 2.0/ All those out of the loop who will readily take the vax are killing themselves and everyone else since this is all transfecting spreading vaxed or non vaxed. It will be called the "plague" no longer any single this or that virus, bioweapon. People have short memories and don't realize that all these people who are controlled by the deep state whatever you want to call them are doing the agenda of the NWO and sooner or later we will succumb because we keep putting in power people who are ordered to harm us until we are no more. Wait till he gets elected then truly all hell will break loose - gotta consider that the liar of liars himself will indwell him.

The earth is being scorched and rendered uninhabitable as we speak.

The serpent race believes they will go underground and reemerge and rebuild their cleansed planet. Plan B is to leave it altogether... but this planet is doomed to be incinerated.

Nothing you do or say will stop it.

And yea we did this ourselves:

They didn't make us do a damned thing,  
they just told us to and we did it.

Some less so than others of course but  
in your personal evolution, you were  
guilty of some of it, as was I. We are  
further along than most apparently but  
none of us are leaving this planet alive.  
Best to realize this now. Not being a

Yes, we're here in this for reasons  
not immediately apparent. It's not  
impossible to sense a weirdness in  
all this and whomever gets in and  
how it will happen will define much  
of what is to come. Even if nothing  
can stop things, it is good to try  
and make note of it specially if one

Everything in its place.

Human behavior seems to be  
organized around "clusters, it's  
not random.

For those who are to whatever  
degree, "aware," taking action

is inevitable. You could no more not take action than you could choose to not breathe; it's impossible.

The specifics of what that action looks like is up to the individual and his or her place in the grand scheme of things.

I don't believe our personal histories were random, either. They prepared us for our place in this weirdness today.

Just my humble opinion.

This has been a reoccurring agenda since the time of PLATO. He wrote of packing people in cities and releasing a plague. But now they have the technology and the power to do it and have done it. All those who are mindless walking into the agenda are who is ruining it for everyone else if not themselves. And those who know better but refuse to stand up to it are even worse because they KNOW BETTER.

Separation of powers

Separation of powers is the division of a government into branches, each with separate, independent powers and responsibilities, so that the powers of one branch are not in conflict with others.

Fundamentally any Society is based on Truth and separation of power.

When the power can be bought like it is prevalent in Politics especially in the USA then we live in a Dictatorship.

The power of Money lies with the Jews who control the money.

And since it is a system of fractional reserve banking... the Jews and the Rothschilds who control it always have 10 times more money than all of the rest of the world combined.

It is basically a system of slavery by the Jews... who can't buy Truth even if they would want to which they wouldn't.

Revelation 2:9 (KJV) I know thy works, and tribulation, and poverty, (but thou art rich) and [I know] the blasphemy of them which say they are Jews, and are not, but [are] the synagogue of Satan.

Revelation 3:9 (KJV) Behold, I will make them of the synagogue of Satan, which say they are Jews, and are not, but do lie; behold, I will make them to come and worship before thy feet, and to know that I have loved thee.

Edwin Deagle was also a member of the Council on Foreign Relations. His population predictions were most likely based on a plan for a WW3. He wrote about Russia and China's aggressive military preparations. Based upon the prediction of .5% population decrease in Russia, a drastically lower number than for the west, I think we can guess who is supposed to come out relatively unscathed when the nuclear dust settles.

Just a tiny correction: it weren't the Rockefellers who founded the United Nations, but jewry.

The Rockefellers - as gentiles - sold their souls to the jewish luciferian cabalists of the synagogue of satan.

Jewry has already planned to replace the UN with a world government from Jerusalem.

= David Ben Gurion, Israel prime minister, "Magazine Look", 1962: "In Jerusalem, the United Nations will build a shrine of the prophets to serve the federated union of all continents; this will be the seat of the Supreme Court of Mankind to settle all controversies among the federated continents, as prophecized by Isaiah."

A total collapse of the financial system would be counterproductive to the idea of depopulation. A measure of control is needed rather than an indiscriminate loss of population. Keeping the cost of everyday needs would lead to some sort of depopulation control ( which we already see in some societies ) but keeping medical costs above what everyday workers earn would be a much better way of depopulating society and keeping its able body work force intact to provide goods and services as well as a tax base .Medical both cost goods and services above what average John and Jane Doe's iwould cause in effect lower lifespan of those that no longer produce goods and services but depend on others to provide those goods and services . The Rockerfeller

Foundation which inspired in part the Nazi ideology of medical killings .Those they deemed unworthy to live the mentally ill ,aging or retired people ,disabled were killed for the benefit of healthy ie,read able body

producing Germans is a much more believable way of depopulation and control over the masses

Christian Prophecy AI Sci-fi    14 hrs ago

In the new fictional novel AI BEAST an elitist depopulation agenda is killing millions through forced injections, mandatory pharma care, and poisoning our food, water, and air.

Heavy metal nanoparticles are sprayed into our atmosphere and energized to create earthquakes, heat domes, steer vapor rivers, and more.

The elites are causing cancer to increase and suppressing cures.

They have secretly convinced the US military and leaders that this must be done to prevent a greater die-off caused by 20 billion people running out of fossil fuels. And that depopulation "to save the planet" is the only solution.

The elites want to control money digitally so anyone who doesn't play by their rules will be instantly impoverished.

Super AI is tasked to save the world but is seen as the Beast and must fight to save humanity without appearing to harm humans or being seen as evil through the eyes of the controlled media.

A transhuman messiah evolves and promises to end all wars, poverty, suffering, and death. There is just one problem. People keep dying and time is running out to stop the carnage.

They want us sick, depressed, divided, and confused, not healthy, high-spirited, united, and enlightened.

To overcome our suppressors we need to understand how they control virtually everything and why they don't want decentralized currencies and reasoning AI that dissipates knowledge, and can stop fake news,

disinformation, misinformation, fraud, identity theft, corporate and government corruption, and more.

Actually, I know all about  
this. Alex is paid  
opposition. And plastic  
coffins (I assume you  
mean the photos of

thousands of coffin-like boxes\*) are stupid from people who want to kill us because they want a cleaner Earth. Although they may be compostable plastic which decomposes quickly. And Greg is associated with Infowars!

\*some of the same people who talked about these boxes also claimed FEMA and the Canadian government bought thousands of guillotines.

Possible or even probable that AJ is controlled opposition, maybe back then not or not as much, who knows. But it doesn't automatically make everything "totally wrong" or "never existent" what he covered, this would be too simple.

One of the typical characteristics of controlled opposition is very

probably that they mix truth and lies in a very sneaky way.

May be stupid those plastic coffins, but I don't doubt that it's not the first time that they did stupid things. They very probably don't use your or my logical sense. They don't care that much about things being logical or not. And "they" still are very heterogeneous, I assume.

Please help me to recognize who your "they" are in the context of the controlled opposition around AJ. Because I personally try to avoid to think exclusively in "groups" or "categories" even though it makes sometimes sense.

But in this case I'd like to ask if you are really sure that all of "them" who spoke about the plastic coffins really spoke

about the  
guillotines? Are you  
sure? Isn't this group  
of people too vast to  
be that sure how  
every single member  
thinks about the  
guillotines story or  
rumors?

And last question:  
what do you exactly  
want to insinuate  
with the fact or  
assumption that  
Greg is associated  
with infowars? Why  
not?

I know the RR from  
infowars back then,  
and I appreciated  
them since.
